World Development Indicators (2022)

An Exploratory Analysis

Krystal Li

2025-02-26

Overview of GDP Per Capital

- GDP per capita varies widely across nations.
- High-income countries have significantly larger economic output per person.
- Notable disparities exist between developed and developing economies.

Insights on Life Expectancy

- Higher GDP per capita correlates with longer life expectancy.
- Developing countries generally exhibit shorter life expectancy rates.
- Economic stability influences public health outcomes.
